OF

# NEWFOUNDLAND AND LABRADOR,

1891.

# TABLE I.

POPULATION, SEX, CONDITION, DENOMINATIONS, PROFESSIONS, &c.

# St. John's, N. F.

J. W. WITHERS, PRINTER TO THE QUEEN'S MOST EXCELLENT MAJESTY.

To His Bredleney Lieutenant-Colonel Six J. Teresce N. O'Briers, Knight Commander of the Most Distinguished Order of St. Michael and St. George, Governor and Commander-in-Chief in and over the Island of Newfoundland and its Dependencies.

#### MAY IT PLEASE YOUR EXCELLENCY ;-

I have the honor to submit the Return of the Census of this Colony and its Dependencies which was taken in the year 1891.

The labour, of which the accompanying volumes are the result, was commenced in the month of June and continued until November, when the last series of returns was received from the Labrador.

The Census was not taken at the usual decemnial period, which would have been in 1894, as Her Majesty's Government had expressed a desire that Nevfoundland should act in unison with the rest of the Britist Empire in undertaking a simultaneous Census. It should therefore be remembered in making a comparison of increase or decrease, that the period covered by the Return is only that of seven vera:

Desirable as it would have been to secure an enumeration of the people of this Colony in one or two days, as is customary in other parts of Her Majosty's dominions, such a course is entirely impracticable in this Colony where the population is scattered over a coast line of several thousands of miles and where communication is largely by water.

It will be noticed that in many of the Districts the increase of population has been small, whilst in a few there has been a decrease. This may be accounted for by the large inducements held out to artisaus and labourers in the United States. Newfoundland is not singular in this respect. The report of the statistics of Canada show a similar result throughout the Maritime Provinces.

For the convenience of reference the result of this work has been divided into two volumes, one dealing with the population—their sex, denomination, ages and professions; and the other with the property and productions of the Colony. Comparative statements are also appended to both.

As regards the main object of a Census, the ascertaining of the total population and its distribution throughout the Colony, the accompanying Return may be considered as accurate. Every effort has been made to discover and correct errors during the various stages of compilation, and any errors that may still exist cannot materially effect the practical result.

I have the honour to be, Your Excellency's most obedient, humble servant.

> R. BOND, Colonial Secretary.

# INDEX.
